Check the appropriate box to indicate the rule pursuant to which this form is being filed, and provide the period to which the information in this form applies:

- Rule 13p-1 under the Securities Exchange Act (17 CFR 240.13p-1) for the reporting period from January 1 to December 31, 2013

Section 1 Conflict Minerals Disclosure

Item 1.01 Conflict Minerals Disclosure and Report

This Specialized Disclosure Report on Form SD of World Wrestling Entertainment, Inc. (“WWE”) is for the period from January 1, 2013 to December 31, 2013. Unless the context indicates otherwise, “WWE,” “we,” “us,” and “our” refer to World Wrestling Entertainment, Inc. and its consolidated subsidiaries.

During 2013, we contracted to manufacture one product for which 3TGs (as defined below) are necessary to their functionality or production. The term “3TGs” refers to columbite-tantalite (coltan), cassiterite, gold, wolframite or their derivatives, which are limited to tantalum, tin and tungsten. Our WWE championship belts (the “Covered Product”) contained small amounts of tin.

Accordingly, we have conducted a country of origin inquiry (“COI”) that was reasonably designed to determine whether any of the tin in the Covered Product originated in the Democratic Republic of the Congo or an adjoining country (the Republic of the Congo, the Central African Republic, South Sudan, Uganda, Rwanda, Burundi, Tanzania, Zambia or Angola), or were from recycled or scrap sources.

Information about our COI, as well as the steps we have taken to exercise due diligence on the source and chain of custody of the tin in the Covered Product, is included in our Conflict Minerals Report, which is included as an exhibit to this Form SD . In addition, our Conflict Minerals Report is publicly available at <http://ir.corporate.wwe.com>, as well as the SEC’s EDGAR database at www.sec.gov.

Section 2 Exhibits

Item 2.01 Exhibits

Exhibit 1.02 Conflict Minerals Report as required by Items 1.01 and 1.02 of Form SD

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Secretary

EXHIBIT INDEX

1.02 Conflict Minerals Report as required by Items 1.01 and 1.02 of Form SD.

World Wrestling Entertainment, Inc.
Conflict Minerals Report
for the Year Ended December 31, 2013

This Conflict Minerals Report (the “Report”) of World Wrestling Entertainment has been prepared for the period from January 1, 2013 to December 31, 2013. Unless the context indicates otherwise, “WWE,” “we,” “us,” and “our” refer to World Wrestling Entertainment, Inc. and its consolidated subsidiaries.

During 2013, we contracted to manufacture one product for which 3TGs (as defined below) are necessary to their functionality or production. The term “3TGs” refers to columbite-tantalite (coltan), cassiterite, gold, wolframite or their derivatives, which are limited to tantalum, tin and tungsten. Our WWE championship belts (the “Covered Product”) contained small amounts of tin.

We have developed a conflict minerals procedure, under the supervision of the WWE General Counsel, reasonably designed to identify whether the tin in the Covered Product originated in the Democratic Republic of the Congo or an adjoining country (the Republic of the Congo, the Central African Republic, South Sudan, Uganda, Rwanda, Burundi, Tanzania, Zambia or Angola) (the “Covered Countries”), or whether any of the 3TGs in the Covered Products are from recycled or scrap sources.

Description of WWE’s Reasonable Country of Origin Inquiry (RCOI)

We have conducted a country of origin inquiry (“RCOI”) that was reasonably designed to determine whether the tin in the Covered Product originated in a Covered Country or whether any of the 3TGs in the Covered Products were from recycled or scrap sources.

We made inquiry of the supplier of the Covered Product as to the source of the tin used in the Covered Product. Our supplier has informed us supplier that the tin does not come from recycled or scrap sources; that it was purchased from a supplier in China; and that the smelter of this material was Yunnan Tin Co., Ltd., which has received a “conflict free” designation from the Conflict-Free Smelter Program, an audit program developed through an industry initiative to validate smelters’ and refiners’ sourcing practices .
