contact in connection with this report.)

Check the appropriate box to indicate the rule pursuant to which this form is being filed, and provide the period to which the information in this form applies:

- Rule 13p-1 under the Securities Exchange Act (17 CFR 240.13p-1) for the reporting period from January 1 to December 31, 2017

**Section 1 Conflict Minerals Disclosure**

**Item 1.01 Conflict Minerals Disclosure and Report**

This Specialized Disclosure Report on Form SD of World Wrestling Entertainment, Inc. (“WWE”) is for the period from January 1, 2017 to December 31, 2017. Unless the context indicates otherwise, “WWE,” “we,” “us,” and “our” refer to World Wrestling Entertainment, Inc. and its consolidated subsidiaries.

During 2017, we contracted to manufacture products for which 3TGs (as defined below) are necessary to their functionality or production. The term “3TGs” refers to columbite-tantalite (coltan), cassiterite, gold, wolframite or their derivatives, which are limited to tantalum, tin and tungsten. Our foam fingers contained small amounts of tin and certain WWE lapel pins contained small amounts of gold (the foam fingers and WWE lapel pins being the “Covered Products”).

Accordingly, we have conducted a country of origin inquiry (“COI”) that was reasonably designed to determine whether any of the tin and gold in the Covered Products originated in the Democratic Republic of the Congo or an adjoining country (the Republic of the Congo, the Central African Republic, South Sudan, Uganda, Rwanda, Burundi, Tanzania, Zambia or Angola), or were from recycled or scrap sources.

Information about our COI, as well as the steps we have taken to exercise due diligence on the source and chain of custody of the tin in the Covered Products, is included in our Conflict Minerals Report, which is included as an exhibit to this Form SD. In addition, our Conflict Minerals Report is publicly available at <http://ir.corporate.wwe.com/docs.aspx?iid=4121687>, as well as the SEC’s EDGAR database at [www.sec.gov](http://www.sec.gov).

**Section 2 Exhibits**

**Item 2.01 Exhibits**

Exhibit 1.02 Conflict Minerals Report as required by Items 1.01 and 1.02 of Form SD

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Date: May 14, 2018

SVP, Assistant General Counsel-IP

EXHIBIT INDEX

Exhibits 1.02 Conflict Minerals Report as required by Items 1.01 and 1.02 of Form SD

**World Wrestling Entertainment, Inc.**  
**Conflict Minerals Report**  
**for the Year Ended December 31, 2017**

This Conflict Minerals Report (the “Report”) of World Wrestling Entertainment has been prepared for the period from January 1, 2017 to December 31, 2017. Unless the context indicates otherwise, “WWE,” “we,” “us,” and “our” refer to World Wrestling Entertainment, Inc. and its consolidated subsidiaries.

During 2017, we contracted to manufacture products for which 3TGs (as defined below) are necessary to their functionality or production. The term “3TGs” refers to columbite-tantalite (coltan), cassiterite, gold, wolframite or their derivatives, which are limited to tantalum, tin and tungsten. Certain of our foam fingers contained small amounts of tin and certain WWE lapel pins contained small amounts of gold (the foam fingers and WWE lapel pins being the “Covered Products”).

We have developed a conflict minerals procedure, reasonably designed to identify whether the tin and gold in the Covered Product originated in the Democratic Republic of the Congo or an adjoining country (the Republic of the Congo, the Central African Republic, South Sudan, Uganda, Rwanda, Burundi, Tanzania, Zambia or Angola) (the “Covered Countries”), or whether any of the 3TGs in the Covered Products are from recycled or scrap sources.

**Description of WWE’s Reasonable Country of Origin Inquiry (RCOI)**

We have conducted a country of origin inquiry (“RCOI”) that was reasonably designed to determine whether the tin in the Covered Products originated in a Covered Country or whether any of the 3TGs in the Covered Products were from recycled or scrap sources.

We made inquiry of the suppliers of the Covered Products as to the source of the tin and gold used in the Covered Products. One of our suppliers has informed us that the tin does not come from recycled or scrap sources and was mined and smelted in either South America, Malaysia, Indonesia, China or Thailand; our supplier of the other Covered Product has informed us that the tin used in such Covered Product does not come from recycled or scrap sources; that it incorporated into their Covered Product gold that was sourced in Taiwan.
