(Name and telephone number, including area code, of the person to
contact in connection with this report.)

Check the appropriate box to indicate the rule pursuant to which this form is being filed, and provide the period to which the information in this form applies:

Rule 13p-1 under the Securities Exchange Act (17 CFR 240.13p-1) for the reporting period from January 1 to December 31, 2019

Section 1 Conflict Minerals Disclosure

Item 1.01 Conflict Minerals Disclosure and Report

This Specialized Disclosure Report on Form SD of World Wrestling Entertainment, Inc. (“WWE”) is for the period from January 1, 2019 to December 31, 2019. Unless the context indicates otherwise, “WWE,” “we,” “us,” and “our” refer to World Wrestling Entertainment, Inc. and its consolidated subsidiaries.

During 2019, we contracted to manufacture products for which 3TGs (as defined below) are necessary to their functionality or production. The term “3TGs” refers to columbite-tantalite (coltan), cassiterite, gold, wolframite or their derivatives, which are limited to tantalum, tin and tungsten. Our foam fingers contained small amounts of tin and certain WWE lapel pins contained small amounts of gold (the foam fingers and WWE lapel pins being the “Covered Products”).

Accordingly, we have conducted a country of origin inquiry (“COI”) that was reasonably designed to determine whether any of the tin in the Covered Products originated in the Democratic Republic of the Congo or an adjoining country (the Republic of the Congo, the Central African Republic, South Sudan, Uganda, Rwanda, Burundi, Tanzania, Zambia or Angola), or were from recycled or scrap sources.

Information about our COI, as well as the steps we have taken to exercise due diligence on the source and chain of custody of the tin in the Covered Products, is included in our Conflict Minerals Report, which is included as an exhibit to this Form SD. In addition, our Conflict Minerals Report is publicly available at <http://ir.corporate.wwe.com/docs.aspx?iid=4121687>, as well as the SEC’s EDGAR database at www.sec.gov.

Section 2 Exhibits

Item 2.01 Exhibits

Exhibit 1.01 Conflict Minerals Report as required by Items 1.01 and 1.02 of Form SD

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Date: May 22, 2020

and Assistant General Counsel-IP

EXHIBIT INDEX

1.01 Conflict Minerals Report as required by Items 1.01 and 1.02 of Form SD.

World Wrestling Entertainment, Inc.
Conflict Minerals Report
for the Year Ended December 31, 2019

This Conflict Minerals Report (the “Report”) of World Wrestling Entertainment has been prepared for the period from January 1, 2019 to December 31, 2019. Unless the context indicates otherwise, “WWE,” “we,” “us,” and “our” refer to World Wrestling Entertainment, Inc. and its consolidated subsidiaries.

During 2019, we contracted to manufacture products for which 3TGs (as defined below) are necessary to their functionality or production. The term “3TGs” refers to columbite-tantalite (coltan), cassiterite, gold, wolframite or their derivatives, which are limited to tantalum, tin and tungsten. Certain of our foam fingers contained small amounts of tin, certain WWE lapel pins contained small amounts of gold plating and our replica championship belts contained some gold plating (the foam fingers, WWE lapel pins and championship belts being the “Covered Products”).

We have developed a conflict minerals procedure, reasonably designed to identify whether the tin in the Covered Product originated in the Democratic Republic of the Congo or an adjoining country (the Republic of the Congo, the Central African Republic, South Sudan, Uganda, Rwanda, Burundi, Tanzania, Zambia or Angola) (the “Covered Countries”), or whether any of the 3TGs in the Covered Products are from recycled or scrap sources.

Description of WWE’s Reasonable Country of Origin Inquiry (RCOI)

We have conducted a country of origin inquiry (“RCOI”) that was reasonably designed to determine whether the tin and gold in the Covered Products originated in a Covered Country or whether any of the 3TGs in the Covered Products were from recycled or scrap sources.

We made inquiry of the suppliers of the Covered Products as to the source of the tin and gold used in the Covered Products. One of our suppliers has informed us that the tin does not come from recycled or scrap sources and while it could not determine the source of the small amount of tin used in the foam fingers, it did not come from one of the Covered Countries; our supplier of the lapel pins has informed us that the gold used in such Covered Product does not come from one of the Covered Countries. Finally our supplier of championship belts informed us that their gold was obtained from a smelter in Rhode Island.
